MEDICAL.

DR. JOHN BULL'S Compound Pectoral of Wild Cherry,

For the complete Cure of Coughs, Colds, Asthma, Bronchitis, INPLUENZA, PAINS IN THE SIDE AND BREAST, SPITTING OF BLOOD, AND CONSUMPTION,

Is rapidly advancing in the estimation of the public. It is no empirical nostrum; its component principles are made known to the entire medical faculty. It is prepared accurately from the recipe of an experienced and talented physician, and has proved itself to be the greatest remedy for all diseases of the Lungs ever discovered; and wherever it has been introduced it has made cures which are perfectly astunishing. It is which are perfectly astonishing. It is bound to supersede every other Cough Medicine before the public. Testimon-Medicine before the public. Testimonials are daily being sent into the proprictor, of cures effected even after physicians had abandoued every hope. A single trial will convince the most incredulous of its efficacy in enring that class of diseases for which it is designed. Why is it that so many die every year of Consumption, or some other disease of the Lauga? Because they neglect its sure forerunner—a "simple cold,"—which might be easily cured by the prompt use of a single bottle of Dr. John Bull's "Compound Pectoral of Wild Cherry." We say, therefore, Try it, by all means. It this does not cure you, nothing ean. you, nothing ean.

Sold by all Druggists everywhere.
All Orders from Wholesale Purchasers, or applications for Agencies, must he addressed to DR. JOHN BULL,

DR. WM. PRICE

It INDERS to the public and warrants the certain and orectual cure of the following diseases:

ore fula, Cancer, Pries. Sore Eyes, Chills, Chronic strikes. Spythils in allof its stages, Fisulia, without my the knife or other painful remedies.

It remove the horrid consequences of Onanism Self Pollution. I can cure these diseases, and have not to sustain this. The statement of such men as wm. L Breckinridge, Judge Graiam, Judge Loving, ige Underwood, "and many others too numerous to miton."

We have read the above card of Dr. Price, and some fus have known him long, and all of us have noticed be success which has attended his efforts in curing the bove-named classases, and we do not healtste to add as testimonial of our unqualified approval of what as been said by the highly reputable gentlemen above fered to.

TO ALL attention to the notice of the Peoria Insurance Company from the Chicago Daily Press and Tribune, which notice was voluntary on the part of the editors, who know what they say to be true. Such evidence must put to blush the petty malice aimed at the Peoria Insurance Company by some unslictous slandesers of our city. The Company has a paid capital of \$20,000, and a surplus of \$52,000. This surely is a sufficient guaranty to all who will insure. Its business is very large and reliable. Reference to the only loss in Louisville for the last 12 morths in the card of Wm. Musselman. I hereby interest who want haverance to give me a calt. The azency is now under the control of the underwriters of this city, but free and untrammelical. Risks taken on my own judgment, and if any loss occurs, it will be paid ny own judgment, and if any loss occurs, it will be pair promptly. From the Chicago Daily Free Press and Tribune, Feb. 12th, 1859.] The Peoria Marine and Fire Insurance Compart.—It is with pride and pleasure that we ask the attention of our readers to the statement of this company in our coloures this morning. It is the first detailed exhibit of the candition of any home company that we have ever seen, an icompares most favorably with the statements of the best Lastern companies. Such an array of assay, amounting in all 19 \$352,556 24, shows most conclusivemounting in all to \$552,5-6 24, shows most conclusive, that we have a company in our own State, as sound and as well managed as any other, no insiter where loaded. As it regards its prempiness and liberality in the settlement of its losses, no company has a b-tter remarked. The Peora Company is deing business in est of the Western and Southern States, I clusting Wisconsin, Michigan, Indiana, Missouri and Kentucky, clere it is obliged to file an annual statement of its coulition and to comply with the same laws that are required fall Fastern companies. The fact that the companies all Eastern companies. The fact that the company n comply with the laws of those States, which are rearied as very onerous by many companies, shows that has the necessary capital, and as available assets as my other company, being subjected to the same provi-

d experience and unblemished integrity, and the suc of the company proves that they have the requisite a ty to manage the affairs of such an institution. One pe using to manage the maints of such an institution. One pe-culiar feature in this company, which pinces its stability and permanency beyond a doubt, is, that by provision it is charter, if by any means the capital of \$300,000 should bee me impaired a single dollar, and should any policy be issued thereafter, the Directors render them-selves personally liable for any loss that may occur— As the Directors would not care to incur such a resp. instite Directors would not care to incur such a resp in-bility, and even if they did, as their aggregate wealth quite large, the policy holders have an extra protec-on and safety by this provision of the Charter, which wists in but few if in any other company. AN ATTEMPT AT SUICIDE. - The young wan whose ttempt to commit suicide at the Exch Dee Fotel iu this city we noticed Saturday morning, has so far recovered as to be able to walk about th. house. His name is Gco. H. Stillman, of Cincin uati, Ohio, where he is sugaged in the photographing business on Fifth a reet, near Race. He is a fine looking young man, between twenty-five and thirty years of age, about six feet high, with dark and long hair and whiskers, and dressed in genteel and fashionable manner. He can give no reason for the rash act, but

enied to have been impelled to it by some of lose nucontrollable and indclinable feelings that often hurry men to their self-destruction. The all particulars of this singular case seems to be that, on Tuesday last, he left Cincinnati for Louville, without any business calling him here, and vithout informing any of his friends of his inten. ion. He is advertised as missing in the Cincinunti daily papers of Thursday. On Tuesday he crived here, and engaged a room in the Exchange llotel, and registered his name as C. S. Henry .-He was shown to room No. 51 third floor, in he most secladed part of the house, which he ocpied Tuesday night and Wednesday. On Wedesday evening he came in slightly under the inhance of intoxicating drinks, and proceeded to is room, locked himself in, and after writing, on the margin of a newspaper, a few lines to the prorictor of the hotel, he undressed, got into bed, and then drank about half an ounce of prussic cid. The note to Capt. Combs read as follows: To the Roprietor of the Exclange Hotel—Dear Sir: Will you, on linding me, telegraph to D. R. Houg, No. 100 Fourth street, or W. J. Jackson, No. 203 Western Row, Cincinnuti, Ohio, and

bblige Yours, respectfully,
My real name is GEO GE II. STILLMAN. The effect of the poison must have been imicliate and severe, yet it was not until mornng that he was discovered. Several servants, attracted by his groans, forcibly entered his coom, when he was found lying partly out the bed, with his head hanging to the oor, his right arm raised, with hand hard euched, and every muscle and fibre of his body haking with convulsions, whilst on his brow bready hung the damp pall of death.

On the floor near the bed was the bottle conaining the poison, marked "hydrocyanic or prasic acid, of the strength of the U. S. Pharmabout half an ounce of the preparation.

A physician was at once called to see him, and edical skill, assisted by a strong and robust onstitution, robbed death of his prey, and saved he young man from an untimely and disgraceful grave. At his first recovery he expressed his egret at living, but now with the buoyancy of de and hope in his heart, he rejoices that his readful purpose was not accomplished. Capt. Combs, in compliance with his request

elegraphed to his friends, and they arrived last evening. He owes a debt of gratitude to the proprietor, clerks, and ladies of the hotel, for their sind and faithful attentiou. The Cincinnati Enquirer, of Saturday, says in

eference to Mr. Stillman: Stillman was married to a young woman living

in the suburbs of the city, some eight months since, and as she had \$30,000 in property, it is said he married her for gain. About two months founds being in the hands of a guardian, which were soon exhausted. He then became quite melancholy, and, it is said, dissipated, and his troubles of late increased, inducing him at last to leave the city unknown, and to endeavor to take Mrs. Stillman is plunged in grief, and is igno-mat of what to do, but hopes her husband will set recover from the fatal ellort.

It is a pleasant thing, as the world goes, make money; but that pleasure must be greatly enhanced when at the same time one is conferring a lasting benefit upon his race-when every dollar of profit that goes into one's pocket is the representative of pains relieved, sufferings assuaged, or, perhaps, life saved.

Such is the happy condition of our friend. I)r. John Bull. While complacently pocketing the profits arising from the immense sales of his Peetoral of Wild Cherry, his Sarsaparilla, and his Pain Killer, he enjoys the consciousness of knowing that thousands of his countrymen, re stored to health through the agency of his medicines, are blessing the hour when they first urday night. heard of his name. Iall was filled to suffocation on Saturday night to witness the great trial dance between all the hampion jig dancers of this city, including some from other points. There were some six or seven entries, and the prize was a silver goblet. Each one acquitted himself admirably, and, in fact, so close was the contest that it was very difficult for the committee to decide who should hear off the palm. The committee of judges consisted of five, and when they retired they agreed that the majority should rule. The vote

was taken, which resulted as follows: Joseph Buckley, 2; Charles Rivers, 2; Learry, one. The latter being then withdrawn, the second bullot stood:

Buckley, 3; Rivers, 2. The former was then declared the victor, and the prize was handed over accordingly by the manager, who made a few brief and appropriate remarks, and was handsomely responded to by the receiver.

Her power certainly lies in action. The instant she commences singing, her whole frame is in motion cious pantomime, which entirely upsets the calenlations of the most cold-blooded critic. Great Excitement in a Public School-Cry of Fire -Children Injured.
[From the Philadelphia Inquirer of Tuesday.]

At four o'clock vesterday afternoon, a scene of excitement occured at the Chester street school, in Chester street, between Eighth and Ninth, and Race and Vine streets, which at one time it was feared would result in the death or fatal injury of

some of the children in the death of ratally of some of the children in the huilding.

It appears that one of the children dropped a piece of gutta percha comb from the npper room through the register into the store below, causing an immense volume of smoke to suddenly issue into the room. This gave rise to a cry of fire, when the children rose en masse, and rushed in a body for the door, notwithstanding the ntmost efforts of the teacher to allay the excitement. The terror stricken pupils rushed pell mell down med up that it was impossible for any one to get into or out of the place.

Friday's Proceedings Concluded Washington, D. C., February 25 .- Senate. At so'clock several motions to adjourn we thrown out. The Senate Chamber is ulling up. Mr. Kennedy, of Md., addressed the Senate, a guing that the acquisition of Cuba is subversive of the bet interests of the South. Referring to the a-pect of our domestic affairs, he considered that innovations had been engrafted on the policy of this Government, which inevitably foretoker its dissolution. The doctrine of States' rights did well while we were a homogeneous people, hound together by common troubles. That day has passed. The unbounded prosperity of this country, its fertile lauds and increasing wealth, have attracted to it people from every clime.—
There is no common interest to hind us together.
The constitution and the Supreme Court are discovered the Country throatens to be here.

The constitution and the Supreme Court are divided, and the Constitution threatens to be but a rope of sand, unable to bind from having no power to punish infractions of the Constitution.

Mr. Kennedy said he had been derided as an old federalist, and the men who so denounced him had now on the table two bils more dangerous in consolidating power in the hands of one main than any that over emphasized from the old federal than any that ever emenated from the old federal party. They had also a bill to give away the pubhe lands to the sweepings of European lazar houses to squat thereon, and under an easy fran-chise to control this Government before they know s'word of our language or one idea toward a com-piehension of our institutions. Yet, while offer ing this extraordinary bonus to the discontented spirits of the old world, they refuse and denounce the old soldier's bill. How comes it, he asked that there is such a diversity in the Democratic

party, marching under one banner and professing common principles.

Mr. Kennedy proceeded to ask him if it was possible for us to hold Cuba with hut fifty-seven ships in the nary to protect the fifty Cuban har-bors. Our Paraguay armado consists of canal boats and side wheel steamers. Have Senators reflected on the bancful effect the acquisition of Cuba would have on the slave?

Mr. Doolittle, of Wisconsin, moved to postpone

the Cuba bill and take up the Homestead bill, and proceeded to speak on the latter.

Thereupon, there was a great deal of confusion and controversy among the different members of the delegation, and between the delegation itself and the Secretary of the Navy, that great abuses had previously existed at the yard, such as idleness, insuhordination, levving of contributions by the master-workmen on the men, and the appointment and retention of incompetent workmen. nent and retention of incompetent workings.

The committee admit all these abuses, but say The committee admit all these abuses, but say they have not sprung from anything done, or any steps taken, by the present Secretary of the Nary, moless this policy of attempting to distribute the patronage equally be the cause of a part of the abuses. No complaints have been made to him on the subject, and no request to redress them in most of the cases; but so far as these abuses have

cen made known to him, he has promptly taken neans to correct them.

In addition to this, he instituted measures for: reform in this particular navy yard. About a year and a half ago he issued an order that he ore a man was appointed to the place of master work-man, he should he subjected to an examination as to his qualifications and character; that under his direction strephous efforts were made to pre

made on positical grounds.
The committee instituted particular examina-tion into the manner in which the navy agent and the naval storekeeper discharged their respective luties. No charge of malfeasance against them was proven; but it was proven that they had not devoted as unch time and attention to their offices as the important duties thereof required. The second point of examination is the An-hra-pite Coal Agency. It was proven that Dr. Hun-cer, the agent, has given no sort of attention to the duties of his office; but has entirely neglected t. He has a partner in the profits and duties of the office, located at Philadelphia. But the part-part has bestowed years little more than the part-

the office, located at Philadelphia. But the partmer has bestowed very little more time upon it
than has the agent himself. He has left the management of the coal business in the hands of a
targe firm of coal dealers in Philadelphia, under
the title of Tyler, Stone & Co. It appears that
whenever he gets a requisition for coal, he hands
at over to them, and that they superintend the whole business of procuring the coal, shipping it etc. The committee condemn the coarse of Dr lunter and his partner, Mr. Smith, but say that te has always been a gaptleman of standing and character; that he lived in the neighborhood of he coul region, and had been engaged in the iron pusiness, which tended to make him acquainted with the different kinds of coal; that he was re-commended to this office by leading members of he Pennsylvania Legislature, and other influen-ial citizens of Reading and Philade phia; that includes the head of the three has been noth-ing to call the attention of the department to his neglect of duty. No complaint has been made by they bedy to the Secretary of the Navy on the sub-city. The coal is of the year best quality, and large The coal is of the very best quality, and has ject. The coal is of the very best quality, and has been furnished regularly for the use of the Government by the tirm of Tyler, Stone & Ca., and, it appears, at 40 cents per for less than the Government had obtained it for up to the spring of 1548. In 1857 the Government bought coal at \$4.25 per ton, and, under this new agent, purchased all the time at \$5.85. It is true that a large number of geotlemen had sworn they could have furnished coal at a lower price, but the committee are of opinion that they could not have furnished an article suntable for the Government use.

n article suitable for the Government use.

As to the selection of Dr. Hunter, and his reemmendation to the office by some of the appli-ants for the agency themselves, the committee ay that the Secretary of the Navy had never been darmed of the arrangement. The previous coal gent, Mr. Tyson, resided at Reading, and had a arther residing at Philadelphia, as the present gent, also residing at Reading, has one at the ance city. Some intimation was made to the 'resident on this subject, but it was indefinite; ad if the President understood anything about

he Paraguay expedition.

The third branch of the examination relates to the live oak contracts. Two dealers had live ak on hand -Swill, the most. At the time pro-osals were issued, the Government bad taken steps for the construction of seven new steeps of war, and the expedition to Paraguay had been au-Much less time was allowed for the dewas wanted for use very soon. Some of it, which was immediately needed, was hought up and used v the Government before the time for awarding contracts. The Secretary of the Navy in his pecifications inserted an nunsual clause, by which he reserved to himself the right not to ward the contract on the bids of any party unss the price was a fair and reasona'sle utif be wished to get the timber of these two en for the use of the Government, he would ow to them and to the world that he did not inand to give them for it anything more than a fair rice. When the bids came in under these pro-osals, these two men who had the timber (Swift

and Jas. Bigler) were not the lowest bidders. Others bid below them, and the contracts were awarded to them. Immediately after the contracts wared to them. Immediately after the contracts were awarded, the contractors came to Washington, and told the Secretary of the Navy that it was impossible for them to comply with the conracts. They knew when they made the hids hat they could not get the timber in time, but reied upon getting the time extended for the decimant. viery. Failing to comply with their contracts, the latter were declared void. Under the law the secretary had the right to contract with Swift or any other person, even if he had to give a higher rate than these men proposed to farnsh the timber lor, and charge the difference to the defaulting contractors. But Swift came forward and furnished the timber at each and all of the variables. ished the timber at each and all of the yards t the lowest price bid by any other party. The ommittee believe that the price was fair, and hat there was nothing in the transaction that in

any way impeached the integrity of the officers of the Navy Department. In 1854, while Mr. Buchanan was iu England, co. Plitt, whose wife has some family connection ith Swift, entered into a contract or arrangemen with Swift, to the effect that he Plitt would on leavor to get contracts for him to supply timber on the condition of receiving 10 per cent. of the gross amounts of all the contracts. Plitt intro duced Swift to the Secretary of the Navy and other influential persons, and put him on good relations with all his friends. Soon after the Cincinnati Convention, Plitt introduced Swift to Mr. Buchanao, hut merely said that he was an "old line Whig, and that he had given him [the President a cordial support Swift it annears condent and the co dent a cordial support. Swift, it appears, con-tributed freely to the Presidential election. In introducing Swift to Mr. Toucey, Plitt made a similar remark. This was all that was told to

the Secretary or to the President, until some time after the contracts for live oak in September last were awarded to Swift. Some time in October or November, while Plit was at the White House, he showed the President the agreement with Swift, saying that Swift had refused to carry it out, and asking him if there could he say objection in prosecuting Swift for a non-fulfillment of the agreement of 1854, and the President replied he could see no objection to it, and that Plitt could do as he pleased.

It appears that Swift claims that his contract with Plitt only extended to the end of the last Administration.

ministration The next and last branch of inquiry was in relation to the awarding of the contracts for the aeven sloops of war ordered at the last session of Congress. There were seven contracts in all, and in awarding five of them it appears that no political or any other improper influence was resorted to by the different bidders; that the proposals were advertised according to the law; that the leading establishment in New York, Philadelphia, loston. Baltimore and Hartford, presented hids Boston, Baltimore and Hartford, presented hids for each and all of the engines; and that the contracts were in every instance awarded to establishments of high reputation for undoubted mechanical efficiency. These bids were referred to a hoard of engineers, consisting of the engineer in chief and three chief engineers, and the contracts were given out according to the report of the board—in some cases unanimous, and in others on the recommendation of the majority. Mr. Martin was a member of this board, and is the Martin was a member of this board, and is the inventor of a boiler which was included in the plans of all the hidders except two, whose plans rere decided on by the board of which he was a mher; and the plans which did not include hi iler were rejected by every member of the board

All of the plans for real competition included Martin's boilers. The committee find under the state of the case, that no preference could have been given to any plan by Martin on that score, but suggest that it would bare been better if he had not been put on that board.

One of the contracts was awarded to Merrick & Sons. Their hid was next to the lowest of seven; one was only four thousand dollars lower, and some bida about forty thousand dollars higher.—
It further appears that the plan of the bid which was lower was condemped by every member of was lower was condemned by every member of the board, and the plan of Merrick & Sons was approved by every member of it. Nicholas Beach, a nephew of ir. Toucey, is a member. This firm bought all Mr. Toncey, is a member. This ifrin bought all the coal for the navy, charging about fifty cents a ton more than it cost them, and more than the market price, and Dr. Hunter got \$7,453 as his profits as coal agent, and did nothing. In 1854 Swift & Wheeler, of Massa chusetts, made a contract with George Plitt, of Philadelphia, an intimate friend of Mr. Buchanan, that Plitt should all Swift in getting the live oak contracts. CELEBRATED Dr. C. M. JACKSON, Philadelphia,

THE RIVER was falling tolerably fast vesterday, with scant 29 feet water on the falls last evening. During the previous 48 hours the river had fallen two feet six inches, and was falling last night at the rate of an inch per hour. The decline altogether, since it commenced falling, has been three feet three inches up to dusk last evening. The weather has been delightfully clear and pleasant, turday being an exceeding bright day-an un-

usual thing this winter.

Water street is still inundated, though we expect the sidewalks from Second to Fourth streets will be visible this evening, and no doubt the Se-cond street bridge will be entirely above water this morning, and the Fultz wharf, the most de-arrable landing for boats. On the Third atreet bridge, last evening, there were five or six feet of water, and parties in yawls passed over the

railing.

As the river recedes, an immense deposit of mud is left on the streets, sidewalks and house floors, and it behoves the people to be on hand stirring up the water with mops and brooms, so as to sweep off the mud with the receding waters. By a little timely exertion much trouble can be saved and a vast accumulation of mud removed, and we hope Capt. Diller, the wharf master, will

take the hint Last evening we noticed, on the first floor of one of the inundated buildings, a deposit of at least four inches of mud.

The river at Cincinnati continues to fall tolerably fast, and up to Saturday it was falling pretty fast at Pittsburgh. It then commenced rising again, with over nine feet water in the channel.

That rich however can have little or no influence That rise, however, can have little or no influence ere. From the officers of the Dove, from Kentucky

river, we learn that that river was rising Satur day, at Frankfort, at the rate of three inches per hour. The rise was caused by the heavy and sud-den rains of Friday night. The river, however, had tallen considerably prior to t at time, ena-bling the Dove to go under the bridge, and we think the last rise caunot raise the Ohio any here. The Telegraph got in last night at 9 o'clock, and to Jue Scott, the attentive mail agent re are indebted for the latest news.

It was rumored yesterday that the low pressure mall boat was to make a quick trip, but she didn't. The officers are possibly afraid of the engines—they were not made at the right place to stand a race. The W. Il. Langicy was to have left Mem phis a week ago, with cotton for Cincinnati. The Cumbe: land river packet Minnetonka n ountered a storm near Smithland, Saturday

night, which used her very roughly. Sonn.-- The Melnotte was sold at Pittsburgh the other day, for \$12,100. The John Bell left St. Louis Friday, fo

The Baltic was in New Orleans Friday week, with the 'New Albany Silver Band' on board.—She is advertised for New Orleans this evening, and if she arrives in time to discharge her cargo, Capt. Meekin will be sure to go.

Both the Arkansas and White rivers were rising at the last dates, which, together with the flood from the Ohio, will be likely to run the lower Mississippi over its banks in many places. lower Mississippi over its banks in many places.

The Coal Fleet Arriving.—Yesterday about moon a pair of coal flats, from Pittsburg, belonging to McClusky & Co., passed over the falls—the ovent couriers of the fleet of broad horns for the south. They were under the gnidance of Jack Muriay. To-day a vast number will be due of the fleet of 65 pair that started on the run. Among the number expected last night were six or eight pair for the Messra. Watson, for New Orleans.

ragedy in Washington-U.S. District Attorney Key Killod by a Member of Congress-Intense

WASHINGTON, Feb. 27 .- The community was brown into intense excilement to-day, by the illing of Philip Barton Key, Urited States Dis-ried Attorney for the District of Columbia, at he hands of Hon. Daniel B. Sickles, member of Congress from the Third District, New York.— According to report, Mr. Sickles becoming con-inced of the truth of certain scandalous rumors About 2 o'clock this afternoon he proceeded from his residence, near the President's house, to the south east corner of Lafayette Square, in the south east corner of Lafayette Square, in the south east corner of Lafayette Square, in the same neighborhood, where key was engaged inversation with Mr. Butterworth, of N. e charged Key with having dishonored him, and estroyed his domestic peace, and immediately not him with a revolver—one of the balls enter ig the left side of the body, and passing through n the right thigh, near the main artery. Key, in alling, implored Sickles not to kill him. The bird shot was in the right side, glancing from the ody and bruising it; of which wounds death

sour and brinsing it; of which would death ensued in a few moments.

The body was taken into the National Club flouse. The coroner immediately summoned a ury, and the inquest was continued for several cours. A verdict was rendered, merely stating that the death is several to the continued of th hat the death was caused from the effect of nisto that the death was caused from the effect of pistol-hots, as above stated, fired by Hon. D. E. Sickles. Crowds of persons gathered in the vicinity of the Club Hause during the day, auxiously inquiring into all the circumstances of the even... After Mr. Sickles had killed Mr. Key, he repair-ted to the residence of Attorney General Black, where he was advised to deliver, himself, into the here he was advised to deliver himself into the ands of the officers, who subsequently conveyed um to jail, to which he was committed for fuith r examination to-morrow. The facts which led to the tragedy will then, robably, judicially transpire.

The inquisition of the Caroner was merely with

eference to the causes which produced the death. The Mexican Question. WASHINGTON, Feb. 27.—The telegraphic an-ouncement that the English and French squad-ons were in hostile attitude before Vera Cruz, avoring Miramon, is not believed here, for the s cabinet, in letters received in Washington unhad made definite arrangements for the settle-ment of the custom duty, and at the time there was no other question at issue. It is known that seuor Mata, Minister of the constitutional gov-renment, has full power to make a treaty in the event of his reception as such by this Adminis-

As the President, in his annual me ssage, exressed himself to the effect that the only hope settling the pending questions with Mexico is krough the constitutional government, some urprise is expressed that it is not yet recognized n the person of Mata, but there may be sufficient reasons for the delay, which according to report, will not much longer continue. Such recognition is anxiously pressed, as it would, in the opinion of its friends, secure the complete triumph of the constitutional government, and enable it to ob-tain the material aid from capitalists to maintain

A friend of Miramon is in Washington looking after the interests of that person's government, although he disclaims being his agent.

From St. Louis. Sr Louis, Feb. 27.—The New Mexican mails of he 7th reached Independence yesterday. The plains are in excellent condition. The weather at Santa Fe is summer like. A arge quantity of goods and provisious have been ent from Santa Fe to Pike's Peak mines. The Albuquerque and Neosho mail arrived at the latter place on the 21sl. The mail of Novem-ber from Neosho has not been heard from since leaving Little river. The mail of December was met 140 miles east of Albuquerque, progressing

Further by the Overland Mail. St. Louis, Feb. 27.—The Leavenworth Times has advices from Denver City of the 2d.

New and valuable discoveries of gold are reported at Vasgues Fort, ten miles from Denver. Claims are being rapidly taken up. Larga accessious to the population are constantly coming from California, Utah and New Mexico.

The winter has been very mild.

The Indians are numerous, but peaceable.

Proclamation by the President. WASHINGTON, Jan. 26 .- The President has issued a proclamation declaring that an extraordinary occasion requires the Senale to convene to receive and to act upon such communications as have been, or may be made to it on the part of the Ex-ceutive. It is called for the 4th of March, at noon, of which all who shall be entitled to act as members of that body are required to take notice.
